## Auto tags go up this week

Granite City motorists who fail to buy their annual auto license stickers by Wednesday evening will be assessed a \$2.50 penalty over the regular cost of license tags, City Clerk Robert Stevens warned today.

Stevens said his office has sold about 11,000 of the tags since they went on sale in mid-April. Usually the city sells approximately 14,000 such vehicle licenses.

Under an ordinance enacted this year, passenger car licenses purchased by senior citizens 65 or over may be obtained for \$1, rather than the regular \$3 passenger car fee, but they also will be required to pay the additional \$2.50 for auto tags purchased after Wednesday.

Fees for trucks range from \$5 to \$25 depending upon weight. The \$2.50 penalty will be added to all license categories, Stevens said.

In addition, motorists failing to display the stickers on their cars and trucks after Wednesday will be subject to arrest.

## Remains critical

Diana Brandt, 13, of Rural Route Two, Box 924, who was struck by a van as she ran to a school bus in Mitchell Thursday, remained in critical condition today in the intensive care unit of Barnes Hospital, St. Louis.

## College courses this fall

"Our planning has been structured so that adult education and regular college credit courses can begin in September 1974," Belleville Area College President H. J. Habbaecker announced at a hearing Thursday afternoon at Granite City High School South. "We are finalizing the employment of coordinator consultants to operate extension centers at Granite City, Madison and Venice—one for each. These people are part of the individual community being served and have experience in education and a working knowledge of the area to be served."

"We are encouraging the development of as many courses as there are student interest and facilities available. This will permit the residents of Granite City, Madison and Venice to determine the size and scope of their operation," Dr. Habbaecker testified.

The Illinois Community College Board hearing dealt with whether the Granite City school district should be detached from the area joining Belleville Area College this summer. About 70 attended.

Nineteen persons testified in favor of remaining with BAC. Three students of Lewis and Clark Community College, Godfrey, urged detachment and eventual annexation to Lewis and Clark.

Many of those who spoke

described the three local school districts as part of a single community and urged that separation of them be avoided. The Madison and Venice school systems are committed to joining Belleville Area College. Among those favoring BAC at the hearing were Madison Mayor Mike Savik and School Supt. John Palchiff, Venice Mayor William M. Ebersold and Supt. John O. Pier, Granite City Supt. B. J. Davis and City Clerk Robert Stevens, representing Mayor Paul Schuler.

Also supporting BAC were

## Schnuck's will open

A new Schnuck's Super Market—the 52nd in the chain operated by Schnuck Markets, Inc.—will open in Granite City at 9 a.m. Tuesday in the Crossroads Plaza Shopping Center at 3801 Namecki Road.

The new store has 29,850 square feet of floor space and will offer a combination of shopper conveniences and new ideas based on the "culmination of our experience over the past years," according to Donald O. Schnuck, president of the Schnuck Market firm.

Special sales offerings are scheduled throughout the week to mark the opening of the new multi-million-dollar super-market. Two other major retail outlets that have opened in the shopping center include Schermer's Men's Store and Tipton Appliances Co.

Among innovations at the market is an electronic cash register system produced by the

MSI Data Corp. of Costa Mesa, Calif., the third to be installed in a Schnuck store. The store has the eight unload-checkout lanes are equipped with electronic registers and electronic produce scales connected to a mini-computer located in the supermarket. The new register system will give consumers quicker and more accurate checkout service, he said.

Produce is weighed on an electronic scale on which a display screen flashes the weight and price of each item as well as the total price.

The new Schnuck Market also will offer one-stop shopping, including a general merchandise department with party supplies, magazines, greeting cards, toys, household supplies and hardware, as well as auto accessories and a traditional line of health and aid items.

## Progress in Venice school strike talks

An optimistic outlook toward settlement of a 22-day-old strike of Venice school teachers was reported today following a weekend of negotiations in which substantial progress was reported by both the teachers and the School Board.

The teachers are meeting today to consider a proposal offered by Board of Education members in a five-hour discussion Saturday.

"I personally feel we made a lot of progress in our meeting Saturday," Mrs. Tena Ponce, chairman of the negotiating committee for American Federation of Teachers Venice Local 985, said in discussing a five-hour negotiating session held between the striking teachers and members of the Venice Board of Education.

"We've met before, of course, but it seemed as if we really hadn't been talking. Saturday, we talked to each other; but offered counter proposals and we are still talking," the Local 985 official said.

Mrs. Ponce said, "We are to

meet today and report the results of the meeting to Supt. John O. Pier."

The bargaining Saturday lasted from 3 to 8 p.m. Discussion followed a similar line to the proposals and counter-offers reviewed earlier.

She said the board and union have agreed not to discuss money or percentages until a decision is reached.

At a May 3 meeting, the board offered the teachers a \$300 lump sum raise for the current school year and a 3 per cent increase for the 1974-75 school year, plus an additional 3 per cent for that year contingent on referendum approval of an increase in the tax rate of the district's educational fund.

The teachers rejected the board's offer at a meeting May 6 and made a counter-proposal reportedly decreasing their previous request of a 5.9 per cent salary schedule raise.

Details concerning the latter proposal were not released to

## New 7-Up president aided in its growth

As disclosed here Thursday, Howard E. Ridgway will retire as chairman of the board of directors of The Seven-Up Company June 30, and the board has announced several key executive appointments effective July 1.

Ben H. Wells, now president and chief executive officer, will assume the position of chairman of the board and continue as chief executive officer.

The new president will be William E. Winter, formerly of Granite City, who presently serves as executive vice president. Winter will also serve as chief operating officer.

Paul H. Young, Jr., now vice president-finance and treasurer, will become executive vice president-treasurer.

Ridgway, Seven-Up board chairman since January 1972, joined the firm in 1937. The son of Seven-Up co-founder Edmund G. Ridgway, he played a key role in the establishment and development of the company's domestic and overseas franchise and subsidiary operations.

Under the direction of Ridgway, a Canadian subsidiary was established in 1938.

Ten years later, an export subsidiary was organized. Today, Seven-Up Canada Limited has 111 franchised bottlers throughout Canada, and Seven-Up International, Inc., has 182 bottlers in 77 foreign nations.

Ridgway also was instrumental in establishment of the Dev-Vend Corp., a Seven-Up equipment sales subsidiary, and Seven-Up Research Corp.

## Township gets Central site

A final determination to give the abandoned Central Junior High School to Granite City Township for construction of a new township hall was made by the Granite City Board of Education last week.

The board authorized its attorney, William Schoelkopf, to take the necessary steps to effect the transfer of the school from the Granite City School District to Granite City Township.

The township is to call a special meeting to approve an agreement before transfer papers can be prepared by the

attorney. The decision to grant the school and property to the township was made after B. J. Davis, superintendent of schools, told the board a group proposing to purchase the building had decided not to make an offer for the structure. Davis recommended an agreement with the township.

The proposed agreement calls for the township to demolish the school building and to construct a new township office building on the site at 21st Street and Delmar Avenue. In return for the land, the township is to give the school board, rent free, 2,000

square feet of office space in the new building for a period of seven years.

Davis said the offer not only would save the district an estimated \$25,000 to \$30,000 to demolish the structure, but would save \$40,000 in rental now paid for special education offices.

The district plans to move the special education program from space now rented at 2801 Madison Ave. to the new township building. When the school district reached the decision to enter into the agreement, Nelson Hagnauer, supervisor of

Granite City Township, commented, "I appreciate the decision you have made. This new building will be an asset to the township, the school district and downtown Granite City."

"We hope it will provide facilities for the elderly and for everyone in the township. On behalf of the township, we appreciate what you people are doing," he told the school board.

The township has reserved \$500,000 from federal revenue sharing for construction of the new building and an additional \$40,000 for land acquisition which may be used to raze the school building.

## Open house at GC Steel all day Friday, Saturday

Nearly 12,000 employees, members of their families and members of the general public are expected to attend an open house at Granite City Steel Friday and Saturday, May 17

and 18. Planned bus tours, to be conducted from 9 a.m. to 5 p.m. each day, will include a drive through the GCS blast furnace complex—plus stops at the

basic oxygen furnace, the blooming mill and the massive 80-inch hot strip mill.

Optional side trips to the cold strip mill, the "A" galvanizing line and the North (galvanizing, corrugating and shipping) Plant also will be available.

Tours will start at the main GCS employee parking lot at 21st Street and Lee Avenue. Ample, free parking will be available nearby.

The main tour will end in a large tent adjacent to the hot strip department. Refreshments will be served and a new GCS brochure will be available in the tent.

There also will be displays of various forms of finished and unfinished steel, a review of products made by GC Steel customers in the St. Louis area, and an exhibit highlighting GCS pollution control progress and programs.

In addition, prizes will be awarded to the three visitors making the most accurate guesses on the number of iron ore pellets in a huge jar that will be on display in the tent.

"All interested persons are cordially invited to attend the open house. However, Granite City Steel is not equipped to handle large groups of visitors such as school classes, clubs or other organizations. In addition, no camera will be permitted in the plant," a spokesman said.

## Cope with Downstate needs—House nominee

"The needs of downstate communities are being ignored by the Illinois legislature," Everett G. Steele, a Republican nominee for the state legislature, said last week in an address before the Kiwanis Club of Edwardsville.

Noting that the legislature is once again embroiled in a controversy over rapid transit aid to Chicago, Steele said, "Transit aid in the Chicago area means, in effect, aid to downtown Chicago."

"No voices are being heard in Springfield to seek aid for our communities, many of which have serious problems, particularly in their downtown areas."

"The heart of a community is vital to its existence. If the central sector is left to deteriorate, the health and welfare of that community is in jeopardy."

"If transit aid is to be given, in effect, to aid downtown Chicago," Steele continued, "an equal amount of assistance should be made available to downstate communities—not just for transit aid, but for meeting the other needs and concerns of our communities."

"Greater efforts are needed in Springfield to meet the proper and legitimate needs of our downstate area," Steele concluded.

## Busy year for Madison police

The Madison Police Department during 1973 handled a total of 19,294 radio, telephone and log entries, according to the department's annual report.

The report submitted to the City Council by Chief of Police Frank Dutko listed 348 traffic arrests, 196 arrests for other than traffic violations and 202 juvenile detentions.

Of 45 autos stolen from Madison, 50 were recovered along with seven autos stolen in other cities.

Twenty-nine persons were reported missing, and 24 of them were found, the report said.

It was a busy year also for the humane division which answered 1,045 calls, picked up 916 animals, 645 dogs, 223 cats and 51 other animals and returned nine.

A total of 206 juvenile offenses were reported, with 202 juvenile

detentions.

During 1973 there was one homicide, one forcible rape, 26 robbery cases, 71 assaults, 173 non-auto burglaries, 12 auto burglaries from autos, 242 thefts and 54 auto thefts, for a total of 589 cases. Recent year end totals were 1970-728, 1971-509, and 1972-521.

The report said 11 police officers are attending the Belleville Area College on their own time and three officers, Sgt. William Papa, Officer Thomas Voloski and Officer Donald Bridgik will graduate this month with an associate degree in law enforcement.

The police department continued its sponsorship of Explorer Post 104 made up of 35 young men interested in law enforcement careers. The department and "10-4" spearheaded the Madison cancer drive raising \$1,042.

Due to establishing three police districts within the city limits, primarily for improving surveillance, a noted decrease in burglaries was apparent, according to the Chief.

Dutko said, "Despite the apparent volume of calls for police service, Madison continues to be a relatively safe community to live in and the citizens may rest assured that the fine service they have enjoyed will continue in the years to follow."

"We pledge to continue to serve the officials and citizens of Madison to the best of our ability."

Following a review of the report, the council complimented the chief and his department for the work being done.

serves as honorary chairman; and Wells from 1965 to the beginning of Winter's term on July 1, 1974.

Wells, Seven-Up president since April 1965, joined the company in 1932 as an advertising and sales promotion copywriter. He went on to become sales promotion manager, sales manager and, in 1943, vice president for sales and advertising. He has been a member of the Seven-Up board of directors since 1961.

During Wells' tenure as president, Seven-Up sales have increased from \$39,250,559 to \$146,748,362.

Both internal growth and acquisition of related companies have been contributing factors. Net income during the same period increased from \$2,877,824 to \$14,082,346.

In 1968, Seven-Up inaugurated The Uncola campaign, one of the longest running and most successful programs in consumer goods in marketing history.

The program positioned 7UP in direct competition with leading cola soft drinks, and strengthened its position as the world's third best-selling carbonated beverage and the leading lemon-lime drink.

In addition, The Seven-Up Co. began a planned distribution program during the Wells presidency. In 1970, Seven-Up acquired Warner-Jenkinson Co., a leading manufacturer of food colors and flavors and the primary producer of 7UP extract.

In 1972, the company acquired Seven-Up Bottling of Phoenix, Ariz. — its first U.S. bottling subsidiary.

Last year, the company acquired the California-based Ventura Coastal Corp., a leading grower and processor of lemons, and a major producer of frozen concentrate for lemonade and lemon oil, a main ingredient in 7UP extract.

Also in 1973, the Warner-Jenkinson subsidiary moved into the consumer fragrance field and opened a new manufacturing and distribution channels by acquiring two eastern companies: Creative Perfumers and Flavorists, Inc. of New York and Salient Flavoring Corp. of Brooklyn.

Winter has played a key role in Seven-Up growth for 28 years. He joined the company as a sales training instructor in 1946.

He was named sales promotion manager in 1954, and in 1963 was appointed vice president and marketing manager.

Under his direction, the company's marketing program grew to include numerous specialized functions: advertising, sales promotion, merchandising, packaging, consumer services, market planning and research, field and fountain 7UP sales and public relations.

He has been executive vice president since July 1971.

Winter, 54, is a native of Granite City. His first association with Seven-Up came when he was just 15 years old as a part-time employee of the Seven-Up Bottling Co. in Madison, where his father was sales manager.

He holds a bachelor of science degree in labor economics from the University of Illinois. Winter is married, has two sons and lives in St. Louis County.

Young, 49, has been vice president-finance and treasurer since July 1971. He joined Seven-Up in April 1966, and was elected treasurer the following June 1.

Ask schools to ban soda, candy

All school superintendents in Illinois have been asked to eliminate sale of sweetened beverages and confections from schools to help prevent tooth decay. The request Thursday came from the state health department's Division of Dental Health in support of American Dental Association policies on sale of sugar-rich products in schools.

Dr. Carl Sebelius, chief of the division, said researchers have definitely identified consumption of sugar as a causative factor in dental cavities.

"Dental disease is one of the most widespread diseases affecting and infecting people and health requires consumption of a balanced nutritious diet, and too frequently the American public, especially the school-age child, utilizes sweetened beverages and confections as a dietary substitute."

He said sale of sugar-containing drinks and other confections in schools, especially through dispensing machines, encourages between-meal consumption of sugar-rich products. "It is the between-meal use of sugar which is believed to be especially hazardous to dental health," he concluded.

Faces 4 charges

Ricky G. Greenman, 21, of 2307 August St., was charged with resisting arrest, attempting to elude police, reckless driving and a stop sign violation at 1:30 p.m. Thursday after allegedly fleeing from officers in an auto and on foot.

Police said Greenman was operating an auto which left the Red Barn lot in the 3000 block of Madison Avenue at 1:30 p.m. Thursday and upon observing the squad car attempted to elude the officers by driving down an alley and near a graveyard.

At Kate and 27th streets, officers said Greenman jumped from the auto and a patrolman chased him on foot. Suddenly, Greenman turned around, stuck his hand in the waistband of his trousers and told the officer he would "have to shoot" before an arrest could be made, police said. The pair wrestled and Greenman was handcuffed before being brought to the station and charged.

### Thomas-Frazier nuptials at St. Joseph Church

St. Joseph Catholic Church was the scene of the wedding on May 4 of Miss Patricia Joanne Frazier, a daughter of Mr. and Mrs. William E. Frazier, 2332 Lincoln Ave., and David Hugh Thomas, son of Mrs. Virginia Thomas, 2518 Ivy Lane, and the late William Thomas.

Spring floral bouquets adorned the altar for the 6:45 p.m. double ring ceremony performed by the Rev. Henry Mack.

Mrs. Carmen Mendoza sang The Lord's Prayer and "We've Only Just Begun."

For her wedding, the former Miss Frazier chose a gown made with a Chantilly lace bodice, a high neckline and long puff sleeves. An Empire waistline accented the slightly gathered skirt of chiffon over satin. Lace motifs were applied to the skirt and detachable train.

Her fingertip veil of bridal illusion was secured with a lace headpiece etched with seed pearls. She carried a bridal bouquet of white baby mums, white daisies and centered with a white orchid.

The matron of honor was Mrs. Georgia Duncan, a sister of the bride. Miss Beth Thomas and Miss Barbara Frazier, sisters of the bride and groom, served as bridesmaids.

Their gowns were created alike in dotted swiss nylon over satin in different colors, including yellow, blue and orchid. A daisy trim marked the neckline ruffles and the crescent waists and were repeated at the hem of the floor length skirts to enhance the self fabric flounce.

The long puff sleeves were edged with daisy trim, terminating in a ruffle over the wrists. They wore white sash hats trimmed with ribbon to match each gown and held white baskets filled with yellow, orchid and white mums and daisies.

The groom chose his brother, William Thomas, as best man. James Perdue, Steven Harris, a brother-in-law of the groom, Robert Duncan, the bride's brother-in-law, and Tim Schwendemann, a cousin of the groom, completed the corps of groomsmen and ushers.

Heather Perdue, the flower girl, was dressed in a long white

dotted swiss frock made with an Empire waistline and short puff sleeves. She held a small basket filled with assorted spring flowers.

Scott Yates, a nephew of the groom, served as ringbearer. Mrs. Thomas, mother of the groom, chose a floor length gown in coral double knit. Long chiffon sleeves were set in the fitted bodice and a wide waistband accented the pleated skirt. She wore matching colored accessories.

The bride's mother, Mrs. Frazier, wore a mint green dress of double knit fashioned with a fitted bodice and a long A-line skirt. A white lace collar accented with green seed pearls enhanced the frock, and the same trim marked the long puff sleeves. Both mothers wore orchid corsages.

Miss Janice Biggs and Mrs. Suzanne Harris, a sister of the groom, attended the guest book at a reception given at Polish Hall in Madison. Assisting were Misses Joan Gillan and Susan Mansfield.

A rehearsal dinner was served at Charlie's Restaurant.

They were dressed in full length dresses of floral print, complemented with matching capes and wide brim straw hats. Each attendant carried a basket of spring flowers interspersed with baby breath.

Given in marriage by her father, the bride selected a gown of dacton organza. The transparent yoke was accented with floral Venise lace to create a fan design and the waist and cuffs of the long sleeves were enhanced with bands of Venise schiffli embroidery. A

ruffled flounce marked the hemline of the A-line skirt and swept into a wattleau chapel train.

Her shoulder length veil was held in place with a Juliet cap of Venise lace and she carried a teardrop bouquet of white carnations centered with pink roses and pink baby breath.

The golfing Warriors of Granite City scored 312 on the 18-hole, par 72 of Arlington Heights Friday to take third place in the GCHS North district meet.

South's finish two strokes behind Edwardsville and 11 off the 301 score of champion Alton qualified the Warriors for a berth in Friday's sectional meet at Lebanon's Locust Hills Country Club.

The top three teams and top five medalists advanced to the sectional and a chance to qualify for the May 24-25 state finals at Champaign.

Medalists were: Greg Lilley (Alton) 72; Jim Donner (Edwardsville) 74; Todd Noe (Palmyra) 75; R. J. Tolliver (Alton) 75; Larry Moyle (Alton) 76; and Kevin Slaby 392.

# Warriors leading district net meet

Warrior netmen hold a one-point lead over second-place Alton and Bethalto (tied with 8 points) at the end of two hours Saturday in the rain-shortened South High district tennis meet at Wilson Park.

Third and final rounds of singles and doubles competition will continue here at 9 a.m. Saturday.

In singles, South's Bill Runk drew a first-round bye Friday and then defeated Edwardsville's Danny Lettner 6-1, 6-0 to stay alive in the meet.

Schoolmate John Bruch, who also had a bye, downed Roxana's Joe Laws 6-0, 6-0 in the second round.

South's doubles victory at-tempt rests on the shoulders of Bill Berger and Gary Osborn, who posted a 7-6, 6-1 win in the first round and then defeated Dave Harvick and Joe

# 'Flying' auto clears 12 cars

"I have to hit the ramp at exactly 10 miles an hour," explained daredevil Ken Carter, "If I'm not doing exactly 87, then I won't make it, the landing ramp and will crash into the last three cars."

Billed as the "Mad Canadian," Carter made one oval at the half-mile dirt oval at Tri-City Speedway Friday evening in an old, dilapidated auto and became airborne on his first attempt, clearing 12 cars sitting side-by-side in the process for a new world record of 116 feet.

Carter, who had broken both legs after crashing while attempting the same jump there last August, said of the evening's stock car racing program in the rain, "I don't know if I'll ever catch on, but you'll never catch me on this." Carter's Racing is just too dangerous.

Spalding piloted his late model stock car around the track in 28.21 seconds for the second fastest time in qualifying. Len Gittenmeier of St. Charles had the quickest time of 27.76.

The defending track champion then placed third in the race, behind winner Russ Wallace and Gittenmeier. He captured the third heat race and the handicap event, but lost the 25-lap feature race from start to finish.

In the latter, Gittenmeier was second and Jacksonville's Jim Patrick and Jacksonville's Jim Patrick were third.

A special mechanics race will be the added attraction this Friday at the local speedway, beginning at 7:30 p.m., and on June 29 Ken Carter will return to attempt another record jump before live television cameras.

# Scott Schneider student senator

Robin Roberts, Alton, a junior government major, has been elected president of the student body of Southern Illinois University at Edwardsville. He received 828 of the votes cast Wednesday and Thursday, defeating Michael Taylor (363 votes) and Phyllis Walker (367).

Andy Nalefski of Edwardsville was elected vice-president. He defeated Larry D. Ward.

Four students were elected as senators-at-large to the Student Senate: Scott Schneider, Granite City, and Saleem Halidary, Ann Logan and Stefanie Wilson, all of Edwardsville. They prevailed in a field of 11 candidates.

Robert Gill was elected as the geographic representative of the SIUE campus, and Vernita Ellington was chosen to represent the East St. Louis campus. They faced no opposition. David Sullivan was elected to represent the Alton center, defeating David Grothaus.

The students were elected to one-year terms beginning June 1. The legislative branch of student government is composed of 14 senators, the other seven of whom are elected in the fall.

students Steve Nikonovich and Larry Harley and Chester L. Baker, Carl E. Mathias, Leo H. Kozmen, William F. Winters, Rev. Roy Baugh, Paul Walter of Granite City Steel, Howard Schenke of A. O. Smith Corp., Bill H. Terrell, Alan Walker, Joseph Hassler, Dr. Haberaecker and Milton D. Smith, a member of the BAC Board of Trustees.

Baker, president of the Tri-Cities Area Chamber of Commerce, presented a pro-BAC petition containing over 800 names.

Orville Brown, a Lewis and Clark official, spoke as a "neutral." L&C students urging affiliation with that school were Mike Romero, Steve Bulla and William R. Smith.

The programs of both colleges were praised, and part of the discussion dealt with geographic distance. It was stressed that BAC will pay the tuition of Granite City L&C students to complete their instruction at Lewis and Clark.

Dr. Lawrence J. Auten, petitioned for the ICBP assignment to BAC is to become final Aug. 1 and is to be considered for reconfirmation by the ICBP June 21.

Industrialists and others speaking emphasized the need for continuation of trade relations in the Quad-Cities, and it was noted that only BAC has given such assurance.

Tax rate comparisons voiced were 20.8 for BAC and 27.3 cents for L&C, and Dr. Haberaecker said the new year's BAC rate is down to 18.6 cents per \$100 assessed.

Whether a "backdoor" referendum will be sought, not indicating if it could delay affiliation with BAC for the Granite City school district area.

# Reject demand for more jobs

East Side Levee and Sanitary District trustees rejected last week a request by a group of East St. Louis Democratic precinct committeemen for more jobs and Jack Scoville, board president, told the group that the district probably will run out of funds this summer and force a shutdown of all operations.

The committeemen made their demand in what the levee trustees described as an "executive" session which was closed to the public and to newsmen. The closed meeting followed a regular meeting of the board in which four of the five trustees voted to lay off four men, three of them in the district's mechanical department which has been closed down.

Because of financial difficulties, the levee district has halted most hiring and a number of employees have been laid off. Charles Meyers, East St. Louis board trustee, said the "executive session" was not a regular board meeting, but "just a discussion of politics."

Leroy Roberts, a committeeman and superintendent of the levee district pollution control plant, said the group wanted to meet with the trustees to discuss a legislative bill that would permit abolition of the levee district.

# North advances, opposes South in district today

Heavy rains Saturday caused postponement of Edwardsville district baseball competition. The two-game round has been rescheduled to go on today at 4 p.m. today, with Edwardsville playing host to Madison at LeClair Field and GCHS South taking on first-round center GCHS North here at Wilson Park.

The district tie game is scheduled to be played at 4 p.m. Wednesday at Edwardsville between today's winners.

The Steelers combined their balanced hitting and the relief pitching of Bill Dickerson with Collinsville's three errors to post a 7-4 victory in the meet Thursday.

Collinsville outthrew North 6-5 but Dickerson, after a first-inning starter John Scott in the fifth, shut them out.

The Kahoks put three runs on the board in the top of the third before the Steelers rallied with five of their own in the same inning. Walks by Gene Logans and John Scott and a single by Dave Harrison set the stage for a two-run single to left by Larry

Petri. Jeff Reiter was struck by a pitched ball and the tying and go-ahead runs scored when the ball was thrown away at first base after Bill Carr's tap to the mound. Reiter gave his team a 6-5 margin by scoring on a wild pitch.

Collinsville got a run in the fourth but in the fifth Petri and Reiter drew walks and executed a double steal with one out in the fifth. When Bill Carr grounded to shortstop, Petri was out at home.

Carr later headed for second in a steal attempt and wound up at third on a bad throw from home to second base. Ed Schmidt scored on the throw. Ed Schmidt's triple to deep center drove in the final run.

"We don't have a super star," commented Steele Coach Bob Stegemeyer. "Everyone contributes with hits."

"Defensively," he added, "Leftfielder Schmidt helped turn the game around."

Collecting hits for North were Harrison, Petri, Logas, Schmidt and Dickerson.

# Mercer wins 19-10

Hagauer started Mercer's eight-run fourth with a hit, and finked and Gary McCoy were hit by pitches. Hits by Reznack and Steve Lengyel scored two runners and Rich Schardan blasted a 385-foot homer. Larry

Mr. Laswell was a retired operating engineer and a member of the Operating Engineers Local 513, St. Louis. He was a member of the Baptist faith.

Survivors include his wife, Mrs. Jerree Laswell; two sons, Philip J. Laswell of Granite City and Dan Laswell, serving with the U.S. Army at El Paso, Texas; two daughters, Mrs. Kenneth (Janice) Cox and Mrs. Randy (Deborah) Rousto, both of Granite City; a sister, Mrs. Floyd (Lucille) Lister of Collinsville and two grandchildren.

## Okay treatment plant operator training site

The Illinois Board of Higher Education last week approved construction of a \$2 million Advanced Waste Treatment and Operator Training Facility at Southern Illinois University at Edwardsville.

Funds for the project will come from a grant from the Illinois Environmental Protection Agency. The IEPA will use proceeds from the state's anti-pollution bond issue to make the grant.

Since 1967 SIUE has been sponsoring a sewage treatment plant operators institute through the School of Science and Technology. Non-credit programs have helped upgrade skills of sewage and water plant operators throughout southern Illinois. Funding for the programs has come from the federal government and the IEPA.

When the new facilities are

completed, SIUE will be able to expand existing programs and offer a broader range of waste water treatment instruction on a non-credit basis.

A three-year instructional program is envisioned, with emphasis the first year on entry level and upgrading programs. Topical seminars are to be offered, and a program to assess future state training needs will be started.

Training for more experienced plant operators will be stressed in the second year, with programs for entry level operators also getting high priority. The third year will emphasize operation of more advanced equipment and the need to develop more highly skilled personnel.

Additional funds will have to come from the state or federal EPA or some other source to finance the instructional program.

## 2 aldermen quit committees

Resignation by two aldermen from new committee and chairmanship assignments followed reorganization activities by the Granite City council last week in its first meeting of the new fiscal year. The city began its new year May 1.

Mayor Paul Schuler announced appointment of new committee chairmen to 11 of the City Council's 16 standing committees, and the reappointment of the previous chairmen to the other five.

Selection of committee chairman was made by the mayor from a revised list of committee members given him by the City Council. Under a court ruling, committee memberships are selected by the council, while the Mayor maintains the authority to appoint the chairmen.

At the same time, Mayor Schuler announced reappointment of Chief of Police Ronald Veizer and Fire Chief Don

Parente, both terms to run to April 30, 1978.

He also reappointed other city officials, including City Inspector Ernest Eli and Building Inspector Robert Kelly.

Others reappointed were Placer Warfield, assistant city inspector; Flora Worthen, secretary to Schuler; William Dallas Jr., secretary to the Inspection Department; Judy Dallas, secretary to the detective division; Nadine Harrison, secretary to Veizer; James Kelahan, deputy liquor control commissioner.

George Filicoff, city attorney; Eric Robertson, assistant city attorney; Casper Nighobosian, condemnation attorney; James Thebeau, board attorney; Tom Wofford, humane officer; Robert Jackson, superintendent of the sewage treatment plant; William Smith, plumbing inspector; and Elmer Miller, member of the Board of Fire and Police Commissioners.

All of the appointments were for one year terms except that of Miller whose appointment to the Police board expires April 30, 1977.

In committee realignments, Mayor Schuler appointed Alderman Everett Morlen as chairman of the Police Committee and Alderman Clyde Boyd as chairman of the Street and Alley Committee. Morlen replaces Alderman Gerald Parmley as chairman of the Police Committee and Boyd replaces Alderman Emerald Dawes on the Street and Alley Committee.

Retained as chairmen of standing committees are Parmley as chairman of the Finance Committee, Roy Poulos as chairman of the Ordinance Committee, Morlen as chairman of the Traffic Committee, Ronald Coleman as chairman of the City Hall Committee and William Dallas as chairman of the Sanitation

Committee.

Alderman Walter Nonn was named chairman of Negotiating Committee and the Special Sewer Committee and a member of the Air Pollution Committee.

Following announcement of the new committees, Nonn announced his resignation from all three posts, noting particularly that he did not want to serve on the Negotiating Committee.

"I have been through all this many times and I think it is time some of the younger hands take over," Nonn said. Nonn wrote out his resignation and submitted it to the mayor.

Alderman Poulos also notified the mayor that he was resigning from the Negotiating Committee. Poulos served on that committee during the previous year.

When the mayor made no response to his announced resignation, Nonn told the council that he wanted it understood that if he was not replaced on the three committees, "I will not attend any meetings or call any meetings."

Mayor Schuler said later there was no way he could respond to the resignation because the committees were chosen by the council members. He said he made his selection of committee chairman from a list that was left on his desk more than a week ago.

The new committees, with the chairman named first in each case, are: Finance, Coleman, Parmley and Frank Greenwood; Ordinance, Poulos, Earl Baker and Steve Basarich; Street and Alley, Boyd, R. E. Robertson and Claude Green; Police, Morlen, Parmley and Green; Fire and Water, Baker, Morlen and Boyd; Lights, Dallas, Basarich and Green; Negotiating, Nonn, Poulos and Greenwood; Intergovernmental, Sam Whitmer, Nonn and Dawes; Planning and Zoning, Coleman, Dallas and Green.

Air Pollution, Greenwood, Baker and Nonn; Pollution Plant, Boyd, Robertson and Morlen; Special Sewer, Nonn, Greenwood and Poulos; Traffic, Morlen, Green and Whitmer.

City Hall, Coleman, Poulos and Parmley; Sanitation, Dallas, Robertson and Walker and Parmley said. "The Basarich, and City Buildings, Dawes, Whitmer and Coleman.

Parents of Russell D. Johnson will select an emblem for the district's newest elementary school at a meeting tonight, with pupils voting on school colors Wednesday, according to plans made by the Johnson PTA executive board at a session last week.

Three proposed emblems will be submitted for a parental decision at a general PTA meeting at 7:30 p.m. today at the school.

Johnson pupils will vote on Wednesday their preference for school colors between cranberry and white, blue and white or orange and yellow, PTA officers said.

An open forum for teachers and parents to review progress of classes will serve as tonight's program.

Among other plans finalized at the board meeting was the school picnic on May 31 at the Baptist Church grounds in Mitchell, with Mrs. Nancy Pelekan serving as chairman.

## Oliver's Passbook Primer

**P is for passbook**  
The simplest kind of savings account. It's called "passbook" because that's what you get. A pocket-sized book that holds a complete record of your deposits, withdrawals and balance—as simple as the record you keep in your checkbook.

**A is for anytime**  
You can deposit anytime, withdraw anytime. Other savings plans require you to wait a certain period or until a certain date before withdrawing. But, with a passbook, your money's yours whenever you need it.

Completely safe. At Illinois Federal, your account is insured up to \$20,000 by the Federal Savings and Loan Insurance Corporation, a governmental agency.

**S is for sun**  
Every time it goes up and comes down your savings increase. Because Illinois compounds your interest daily. That means higher annual earnings. And, if you withdraw before the end of a quarter, you still earn interest for every single day the money was on deposit.

**B is for best rates anywhere**  
We pay the highest interest allowed by law on passbook accounts. The current rate is 5 1/4% annually. If it changes, you'll automatically start earning the new rate.

## Miss Laura J. Smith and John Essington are wed

The wedding of Miss Laura Jane Smith, a daughter of Mr. and Mrs. Clifford C. Smith, 2832 State St., and John G. Essington, son of Mr. and Mrs. Alvin C. Essington, 3822 Central Lane, was solemnized on May 3 at the First United Presbyterian Church.

Officiating at the double ring ceremony at 7:30 in the evening was the Rev. David Bruce Maxton. The altar was decorated with bouquets of summer flowers in rainbow colors arranged in tall brass vases.

Burning tapers in branched candelabra, festooned with greenery and white satin bows, illuminated the sanctuary. Pete Kostick and Rick Sbabo served as candlelighters.

Mrs. Isabell Schmidt presided at the organ and accompanied Paul Mabrey as he sang "The Wedding Song," "A Time for Us" and "The Lord's Prayer."

Given in marriage by her father, the bride wore an A-line silhouette gown of polyester organza lavishly accented with Schiffl embroidery, edged in Venice lace.

Venise lace trimmed the high collar and cuffs of the shepherds sleeves and bordered the chapel length train. Schiffl embroidery enhanced the bodice and was repeated on a front panel of the skirt. She wore a Juliet cap trimmed in matching lace to secure her elbow length veil and she held a colonial bouquet of white carnations and daisies, encircled with a garland of greenery and flowing white satin ribbons.

Miss Peggy Hightower, maid of honor, chose a mint green chiffon dress with long sleeves and a V-neckline edged with a lace ruffle. The long skirt was slightly gathered at the Empire waist.

Bridesmaids included Miss Bambi Signaigo, Mrs. Deborah Grove, a sister of the bride, and Miss Carolyn Essington, the groom's sister.

The selected gowns similar to the honor attendants' dress in blue, yellow and pink. Each carried a plateau basket of daisies, colored to match her gown, intermingled with baby breath and accented with variegated colored streamers.

The groom chose Kenneth

Rodgers as his best man. Robert Rickert, Russell Feltmeyer, Raymond E. Duke, William Grove, Steve Szles and Pat Economy completed the corps of groomsmen and ushers. James Smith, a brother of the bride, was the ringbearer.

Guests were received by the newly married Mr. and Mrs. Essington at a reception held at the American Legion Hall.

Members of the wedding party and their families attended a rehearsal dinner at Charlie's Restaurant. The former Miss Smith is a 1972 graduate of Granite City High School and attended Belleville Area College and Southern Illinois University at Edwardsville.

Her husband was graduated in 1970 from Madison High School and attended Belleville Area College. He is a member of the Army National Guard and employed at Consolidated Aluminum in Madison.

They are now residing in Madison.

## Future Secretaries, teachers win honors

Over 50 persons were present at the Tri-Cities Secretaries Association dinner last week to honor junior and senior Future Secretaries Association students and to announce the winner of the Miss FSA Award.

A \$66 scholarship award, based on accumulation of points earned from various FSA chapter activities, was presented to Miss Diane Daugherty, a daughter of Mr. and Mrs. Robert Daugherty, 304 Myrtle Ave.

Miss Daugherty received the Junior FSA Award last year. In the recent "day at the office" project sponsored by the chapter, she spent the day at WMRY Radio, Belleville, where she assisted in the work of the talking books for the blind program.

Sharing honors for the Junior FSA Award were Melissa King, Dorothy Miller and Vicki Nance.

Special recognition was accorded to the two new "Business Teachers of the Year"—Mrs. Bette Dumont, representing Granite City High School North, and Milton Cox, GCHS-South.

Mrs. Judi Sparks, a FSA faculty advisor, introduced the

participants in a skit, entitled "Do's and Don'ts for the Beginning Secretary." Those taking part were Dorothy Miller, Anita Simmers, Phyllis Adams and Sheila Browning.

Mrs. Sally Gracey, Tri-Cities chapter president, conducted the business session and was renamed to the office during an election of officers.

Other officers elected were: Anne Smith, vice-president; Mary Gain, recording secretary; Gail Foley, corresponding secretary; Joanne Kowalski, treasurer; and Janet Barbers and Joyce Savich, board members at large.

An installation ceremony will take place at the June 6 meeting. Mrs. Gracey said.

It was announced that three members taking the Certified Professional Secretary examination, with the results to be known in late July, are Lana Handolph of SIUE, Janet Barbers of Ralston Purina and Beth Bladick of Edison Bros. Stores.

Expected to attend the Illinois Division meeting of the National Secretaries Association at Oak Park this weekend will be Mrs. Gracey.

Jane Davis, Gail Foley, Janet Barbers and Twila Edmonds, who is unopposed for her reelection to the office of division treasurer.

Prizes were won by Adrienne Warchol and Betty Borsch. A guest was Carol Kovach of Moline/Kroco.

## The FORM

### Program vital to moral climate here

To the Editor:

A youngster riding in the car with his mother noticed that the speedometer was broken.

Look, Mother, it's broken. Now we can go as fast as we like," he shouted.

A well-known psychologist stated that a society shapes its children after its own image, and consequently we have just the kind of young people that we deserve.

The Salvation Army is well aware that youngsters imitate their elders. What adults do is more important than what they say.

Is it all right to exceed the speed limit if there is no accusing speedometer to "catch" you? Is a little Saturday

shoplifting a harmless pastime? After all, Mom and Dad sometimes cheat in money matters.

How about drugs? If the adults like a cocktail, why can't the kids have a drink, a pill or a ego?

Some children are born in Salvation Army hospitals. Many are enrolled at an early age in a Salvation Army day care center.

Thousands go to summer camps, learn to play a musical instrument, spend their after-school hours in the Army's recreation room or crafts center, or join a Girl Scout or Sunbeam troop under Salvation Army auspices.

In all of these activities, The

Salvation Army is as concerned about the moral climate it provides for children, as it is about the physical facilities, quality of instruction and relevance of the program.

The Army's socially based programs offer help for today and hope for tomorrow.

In addition to the skills and fun, the youngsters will be in the care of adults who know that the youngsters will be influenced by what they do—far more than by what they say.

The Salvation Army is interested in their fellow man from the "cradle to the grave."

## Pay level, benefits are criticized

To the Editor:

We are writing on behalf of employees of Colonial Haven Nursing Home. Since April 27, we have been on strike because our employer has committed questionable labor practices by trying to persuade us not to join a union.

Despite what many people think, we need a union. Some people think our rewards should be all spiritual, but that's not true.

Sure, we enjoy our jobs, and

we truly care about the patients' welfare and their care, but no matter how much we love our jobs, we have to face the fact that we have families and that we work mainly to support them.

Our pay is terrible. Some are paid only the minimum wage, and we do not even have any paid sick days, much less a paid hospitalization plan.

Often times we are called into work on our days off and we are

not even paid overtime. We would like all people to realize that we need a union just as much as factory workers, public employees, policemen, firemen, steelworkers, etc.

We are urging all real union people to come by our picket line and support our strike.

We can only say that we're years behind union workshops and its high time we caught up.

## News notes

Independent truck drivers

The funeral will be at 10 a.m. Tuesday at St. Clare Church, O'Fallon, for Leo B. Obermeyer, 51, St. Clair County zoning director and former state representative, who died of a heart attack Friday at St. Elizabeth Hospital, Belleville.

Illinois House Speaker W. Robert La Follette called Gov. Dan Walker "a pandering demagogue" responsible for "the most hypocritical administration in the history of Illinois politics." He added that Walker "is beginning to mirror the cartoon image of a politician he said he despised."

More than 100 have applied to

become president of SIU at Carbondale.

With a Canadian firm, Ivaco Industries, acquiring about eight per cent of the stock of Laclede Steel Co., the latter's common stock has taken another good jump to \$60, compared to \$53 a week ago. First-quarter Laclede earnings are up, permitting an ex-dividend and higher earnings for this year have been projected.

Junior Poller is set for 8 p.m. Friday at GCIS North, with "Story Book Characters" as the theme.

The Post-Dispatch said Thursday there was a reference to Granite City Steel by Presidential Advisor John D. Ehrlichman in a discussion with President Nixon on anti-trust policies, judging by a transcript of White House conversations. The newspaper linked an April

## Public aid reporting system

The Illinois Department of Public Aid has initiated the second cycle of a program requiring welfare recipients to report income on a regular basis.

Income reporting cards were mailed during the last week of April to 178,000 families and are to be returned to the Springfield offices of the department by no later than May 17. Families not returning the form by that date will be notified, that their assistance will be discontinued as of June 1.

Welfare recipients are required by state law to report income and changes in circumstances affecting their eligibility for assistance. The income reporting program was begun by the department in November when notices were first sent to welfare families.

The first cycle of the program resulted in cancellation of 4,212 cases at a savings of \$1,266,347.95 per month.

Public Aid Director Joel Edelman urged that all recipients receiving the income reporting form complete the cards and return them immediately in the stamped addressed envelope. He emphasized that recipients are not to take the cards to local county department offices or to district offices and that critical time could be lost if the cards are not sent directly to Springfield.

Income reporting forms were sent to families receiving Aid to Families with Dependent Children as well as all persons receiving general assistance in Cook County.

Not included in the mailing, Edelman said, are families

whose cases were reviewed during the months of March and April. Also excluded were general assistance cases in Cook County which now are under review.

## Con men bilk Venice woman

Mrs. Katie Norris, 67, of 192 Viola Jones Homes, Venice, withdrew \$600 of her life savings from the bank Friday noon and handed it to two men who disappeared with the money. Mrs. Norris said one man approached her while shopping at a Madison grocery store informing her that he had found a wallet "containing a lot of money."

The man offered to give \$75 each to Mrs. Norris and another man who came along, but asked the woman to obtain \$600 in her own money first from the bank.

The men then drove Mrs. Norris to 19th Street and Madison Avenue, told her to go into an auto agency showroom and wait. The pair were returned, she told Granite City police.

Both men were black. One was described as about 50, 5 feet, 10 inches tall, weighing about 200 pounds with widely-spaced teeth and wearing a green hat and check jacket.

His companion was about 60 years, between 6 feet and 6 feet, 2 inches tall and weighed 160 pounds. He had grey sideburns, no front teeth and was wearing a light sports jacket, dark trousers and a blue cap with a bill. Mrs. Norris said.

## Girls on sports teams at issue

Predictions that girls may compete on boys' athletic teams have next year were voiced to the Granite City Board of Education last week by Miss Barbara Kerch, director of girls' athletic events, and Joseph Fedora, the district's athletic director.

They warned that under new state and Illinois High School Association laws and regulations, girls will be allowed to join boys' teams for non-contact sports, unless the district provides girls' teams in the same sports and supplies equal facilities and equipment.

Miss Kerch stated, "We have anticipated this since 1967. We agreed to move slowly and last year dabble in inter school activities for girls, where appropriate. Since then, it's been like Pandora's Box. All Hades has been loose."

She said proof of discrimination between boys and girls by a school district can endanger all federal funding to that district, under a new law, which will be in full effect by 1977.

Fedora explained, "The law apparently was passed in error.

The lawmakers were in a hurry and did not know what they were voting on. I don't believe there is a public school district that can financially meet these requirements."

Fedora predicted, "It is quite possible that girls could compete on our cross-country team next year, unless we have a girls' cross-country team, and I seriously doubt there is enough interest for that."

He said under the proposed law, "A boys' coach must have a very good reason for a girl not making a team. The district is liable for court action."

Miss Kerch added, "Frankly, it's going to be six or seven years before you have any women who know how to coach. I can not see the school district just giving people money they do not know how to spend."

"If you got into a situation where you had to duplicate facilities, you would just wreck the school system," she predicted.

She told the board she plans to propose additional girls' sports activities for next year, costing about \$2,000 more than this year and adding about two new sports. The proposal is to be made at the board's next meeting May 21, she said.

In other business, the board questioned retaining its policy of mandatory retirement at age 65 because of a cafeteria worker who did not wish to retire.

Members agreed to keep the policy, but to allow retired workers to apply for substitute work.

The board approved a resolution praising John Pier, retiring superintendent of the Venice schools, for his services on the Special Education Region 1 District (Special Education) Board. The district includes Granite City. Pier was one of the charter members of that board.

Due to rising costs of student workbooks for spelling, math, reading and student publications, the board voted to increase the maximum the district can charge students from \$4.50 to \$5 each. It was explained that the cost is lower

than in surrounding school districts.

Board members questioned whether the district could change the date of the school's closing for Memorial Day from Thursday, May 30, to Monday, May 27. B. J. Davis, superintendent of schools, said the May 30 date is required by law and the district is unable to revise it, despite requests from numerous parents.

Sabbatical leaves were granted to four teachers on the recommendations of the district's sabbatical leave screening committee. Wayne Hubbard of GCHS South is to continue graduate work at Eastern Illinois University. Mrs. Louella Clemens will work in early childhood education, special education and guidance counseling, and Joseph Thomas Haefer will work in comparative education and European history and geography in Salzburg, Austria, through the auspices of Northern Illinois University.

Permission to use school district facilities were granted to the Granite City Little Rascals program to use South's track and football field May 19 for a football olympics, to the Tri-City Area Association for Retarded to use Niedringhaus School for an annual day camp July 29 to Aug. 9, in case of rain which would prohibit the event being held out-of-doors, and to Gov. Daniel Walker to use the North gymnasium for the governor's appearance here May 22.

## GC council commends police

Cooperative team work among police officers assigned to Granite City's three reorganized police divisions is credited with a sharp reduction in the city's crime rate over the past month and a half, city officials reported last week.

The substantial drop in the number of robberies, burglaries and auto thefts during April prompted the City Council last week to instruct Mayor Paul Schuler to write a letter to the Police Department commending the department for improved efficiency in investigative and patrol operations.

Chief of Police Ron Veizer reported to the council that a total of 44 burglaries occurring during April was a 50 per cent drop from the 88 burglaries reported during the same month a year ago, with 18 of this year's cases solved, compared with four solved in April a year ago.

The number of April burglaries also was a decline of 17 below a total of 61 reported in March this year, with nine of the March burglaries solved, compared to three cases solved in March 1973.

Granite City's police department was reorganized early this year upon recommendation of the Board of Fire and Police Commissioners after a study of local police operations by the Illinois Association of Chiefs of Police. The reorganized department includes three separate divisions—an investigative division under Capt. William Condis, a patrol division captained by Everett Kelly and the services division headed by Capt. Francis McManus.

In addition, six men have been added to the police force and the department soon is to hire five civilian dispatchers which will release even more men for patrol and investigative work. The department now totals 48 men, including Chief Veizer and Lt. Col. George Teller who are the command officers of all three divisions.

Veizer said the "excellent results" in police work since the department was reorganized "is due entirely to the fine team work and cooperation between the men on all three divisions. Since we have more men on the streets, the results are beginning to show."

The chief's report to city officials showed that of 20 assaults occurring during April, 19 were solved. The

number of cases was a drop of five, or 20 per cent, below the 25 assault cases occurring in the same month a year ago, when eight were solved.

Of four robbery cases reported during April, three were solved, compared with six cases reported and none solved in April 1973.

Seventeen auto burglary cases were reported last month, down from 24 the same month a year ago, while 18 auto thefts occurred last month, compared with 22 in April 1973.

The number of arrests in April also increased substantially, the report showed. There were 212 traffic arrests last month, up from 144 in the same month a year ago and up 19 from March this year.

There were 112 other arrests

compared with 76 a year ago, for a total of 324 arrests last month, up 104 over the 220 a year ago. A total of 73 additional charges were filed in all cases handled in April, compared to 29 in the previous year.

On this basis, the police department filed 397 charges in April, compared with 249 in the same month in 1973.

Even the number of traffic accidents dropped sharply last month, the report shows. Granite City had a total of 122 accidents including 96 involving property damage only and 26 personal injury accidents in which 32 persons were hurt.

In April a year ago, the city had 173 accidents involving 132 property damage mishaps and 41 injury accidents in which 55 persons were hurt.

pushed to the floor by another man.

Witnesses later identified the men at the Granite City police station.

Granite City officers were called at 6:40 p.m. Thursday by Mrs. Mary C. Valle, 4601 Kirkpatrick Homes, who alleged that Farley entered the home looking for her son and "threatened her with bodily harm" upon learning he was not there. Dickens and Morgan reportedly were loud and abusive during the incident, officers charged.

A few moments later John Jackson of the 2600 block of Lincoln Avenue said three men in an auto drove past a stop sign and forced his vehicle off the road at Edwards Street and Ridgeland Avenue.

Jackson said the men turned the auto around and its occupants alighted. They allegedly threatened Jackson and flipped a cigarette at a short time later in an alley near Myrtle Avenue.

## 20 charges against 3 in series of incidents

Three Granite City men face a total of 20 charges filed by Granite City and Madison police resulting from a series of incidents early Thursday evening in the two cities.

Arrested by Granite City officers in an alley at the rear of the 2800 block of Myrtle Avenue were Danny Paul Farley, 30, of 2218 Edwards St., Glenn Eugene Morgan, 27, of 2622 Denver St., and Dennis Larry Dickens, 39, of 2128 Nevada Ave. All three were charged with disorderly conduct by Madison police.

Farley was booked by Granite City police on two charges of assault, contributing to the delinquency of a minor, reckless driving, no valid registration, running a red light, illegal transportation of liquor and failing to transfer registration.

Morgan was charged with assault, intoxication, contributing to the delinquency of a minor and illegal possession of liquor.

Dickens was booked on an assault charge and contributing to the delinquency of a minor, intoxication, disorderly conduct and illegal possession of liquor.

Madison police alleged that at 6:30 p.m. Thursday, the trio was at a barbecue stand at 1310 State St. and that threats to "burn the place down" were heard.

Police said a three-year-old girl was grabbed by one man who said, "Call the cops and the kid gets hurt." A customer was

pushed to the floor by another man.

Witnesses later identified the men at the Granite City police station.

The plan, known as "Agenda for Progress," will involve action in areas ranging from resource development to making this region's advantages better known.

The annual meeting and dinner will be at 6:30 p.m. Tuesday at Fischer's Restaurant, Belleville.

Howard R. Fricke, director of the Illinois Department of Business and Economic Development, will be the principal speaker. The meeting is open to the public.

Illinois Metro East is a non-profit corporation devoted to economic growth in Southwestern Illinois.

Membership includes 130 individuals, businesses, civic organizations and governmental units in Madison, Monroe and St. Clair counties.

The departments of economics and business education at Southern Illinois University at Edwardsville will offer two workshops during the summer quarter for secondary and junior high school teachers.

The workshops in economics and consumer economics will be sponsored also by the Illinois Council on Economic Education, and may be taken together or separately.

**"Economic Behavior, Current Economic Problems for Teachers,"** (Economics 582) will be offered June 17-18. Four hours of graduate credit will be given for the workshop to be taught by Stanford Levin, lecturer in the department of economics at SUIE. The workshop will meet daily from 8:30 a.m. to 12:20 p.m.

The course will develop basic economic concepts such as supply and demand and market equilibrium. These concepts will be used to analyze contemporary economic problems such as the energy crisis, international balance of payments, inflation and unemployment.

The other workshop to be offered will be "Proseminar in Consumer Education," (Business Education, 505k), taught by John Clow, associate professor in the SIUE department of business education. The four-week workshop will begin

July 15 and run through Aug. 9 from 8:30 to 10:30 a.m. daily. Four hours of graduate credit will be given for the workshop.

The course will focus on the practical aspects of teaching consumer education. Discussions will include personal budgeting, the cooperative movement, consumer standards and grade labels, the use of installment buying and other forms of credit and recent and pending legislation favorable to the consumer.

Participants who are not admitted already to the Graduate School at SIUE will be able to register as unclassified students on the first day of the workshop, but they must bring an unofficial transcript with them for proof of an undergraduate degree.
